ASSESSMENT TECHNOLOGIES INSTITUTE (ATI)

ATI Nursing Education (Assessment Technologies Institute®) is a technology-based educational assessment and testing program. The program's focus is on helping students succeed in the licensure examination (NCLEX) that all graduates need to successfully pass in order to practice nursing after graduation. Today's nursing students are diverse with different learning styles and needs. ATI Nursing Education's learning systems are designed to offer a variety of learning methods. ATI information and services are available to students throughout their academic career. The following is a summary of the ATI testing that students are exposed to across the nursing curriculum.
